About

The MotherVine Nutraceutical Company is inspired by the oldest living grapevine in America, The MotherVine, circa 1584. We are the premier provider of natural and organic products from the Muscadine Vine and Honey Bee Hive. Made in the USA and following cGMP standards, our dietary supplements feature Whole Muscadine Grapes, one of nature's richest sources of polyphenolic antioxidants*, which research suggests strengthens the body and builds a healthy immune system. *The Journal of Agricultural and Food Chemistry 51(18):5497-503). Product lines include Dietary Supplements, Skin Care, Food & Beverage, Apparel, Home & Garden, and Honey.

Company Profile

Organized as a North Carolina limited liability corporation, the company is headquartered in Manteo, NC, at the home of Co-Founders, Carmen H. Odom and Fountain Odom. Amy Odom, President, resides and maintains a distribution point in Chapel Hill, NC. Steve Drew, EVP Operations, resides and maintains a distribution point in Magnolia, NC. Other key members are Matthew Odom, EVP Market-

ing & Finance, residing in Winston-Salem, NC and Chuck Friedman, Chief Science Officer, residing in Wendell, NC. We are a true North Carolina company.

Company Story

When Co-founder, Fountain Odom, was diagnosed with cancer in 1993, he decided that he had to find the very best anti-cancer products to aid in his recovery. In his search, he found health foods like green tea and blueberries, but absolutely nothing that matched or compared to the antioxidant power and ORAC levels of the Muscadine Grape, a grape indigenous to the southeastern United States.

Fountain then discovered that on Roanoke Island, NC there lived, and continues to live, a 400- year-old muscadine vine known affectionately as "The MotherVine." Some believe it was planted by English settlers as early as 1584. Others believe Native Americans planted it first. A history buff himself, Fountain became even more enthralled with the lore, historical significance, and the amazing scientific based health benefits that the fruit of this plant held. He was determined to share this gift with others.

So, in 2003, with the help, support, and love of his wife, Carmen, the two Co-founded The MotherVine Nutraceutical Company. They partnered with Tinga Nursery in Wilmington, NC to propogate from The MotherVine. Then they worked with Duplin Winery in Rose Hill, NCto establish the MotherVine Vineyard.

In 2008, the first bottles of MotherVine Muscadine Wine were produced and marketed with much success. It was a sellout year with all net proceeds of the sales going to support a NC nonprofit organization, the Outer Banks Conservationists.

Though sweet and delicious, it wasn't the wine they were truly after. They wanted what was left over from the juice. That is, the muscadine pomace - the skin, pulp, and seeds of the muscadine grape used in the supplements. In 2010, The Original MotherVine Whole Grape Supplement™ was created using the best Muscadines and adhering to all cGMP standards (current Good Manufacturing Practices).

A NC beekeeper for over 40 years, Fountain wanted to also share the many health benefits and medicinal properties that come from the hive, including honey and propolis. So, from 2010 to 2011 testing was completed on a new product that blended healing elements from the vine and the hive. The All Natural MotherVine Soothing Balm ™ was created, trademarked, and dermatologist tested using 100%

Natural Muscadine Pomace, Propolis, and Honey for soothing, moisturizing skincare relief.

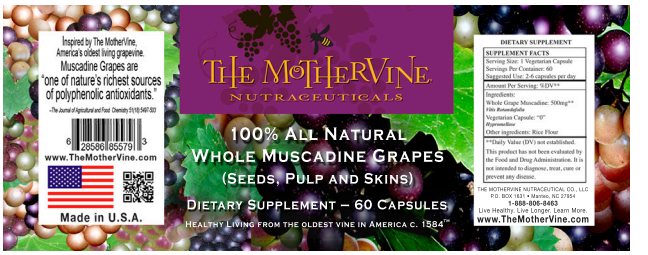
From there, natural and organic soaps were created. Then came the deliciously sweet and nutritious Scuppernong and Muscadine Juices and Breads.

We are establishing a Honey program to promote local beekeepers and the health benefits of All Natural Raw Honey. Finally, people can own a piece of living history by planting and nurturing their own MotherVine Muscadine Vineyard right in their own back yard.

Like the oldest living grapevine in America, The MotherVine, circa 1584, Fountain Odom, the Co-Founder of The MotherVine Nutraceutical Co., continues to inspire others to live healthy, live longer, and learn more about the health benefits of Muscadine Grapes and Honey Bees.

Products Lines

Dietary Supplements



The MotherVine Dietary Supplements, provide powerful, whole food nutrition to the body. Our core product is the 100% All Natural MotherVine Muscadine Original Whole Grape Supplement - seeds, pulp, and skins.

Using the Original 100% All Natural Muscadine Whole Grape Supplement as the base, we have added a "Plus" feature for three additional dietary supplement products:

- The Original Plus Blueberries
- The Original Plus Propolis
- The Original Plus QR (Quercetin and Resveratrol)

Continuing on the primary concept of whole food nutrition around the Vine and Hive, we are introducing two new lines:

- 100% All Natural Muscadine Grape Seed
- North Carolina Propolis

Food & Beverage

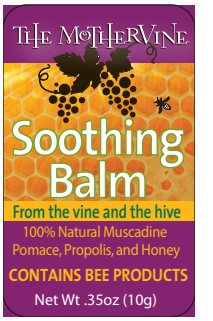
The sweet, delicious tastes of The MotherVine 100% Muscadine Juices and The MotherVine 100% Scuppernong Juices are as satisfying to the palate as is nutritious to the body! Many of these products are available for direct retail purchase for individuals via TheMotherVine.com website.

Current products include:

- Muscadine Juice (10oz and 750ml)
- Scuppernong Juice (10 oz and 750 ml)
- Scuppernong Preserves (9oz)
- Hot Pepper Jelly (9oz)
- Muscadine Bread (23 oz)

Please note that the Scuppernong is a bronze varietal of the muscadine grape.

Natural Skin Care



The MotherVine currently offers three lines of skincare:

The MotherVine Soothing Balm will be launched at the 2011 Natural Products East Expo Baltimore this September. It is a 100% all natural emollient that brings together three key ingredients, Muscadine Pomace, Propolis, and Honey to protect, comfort, and soothe the skin. This unique formulation has been tested in closely monitored clinical trials. People using the MotherVine's all natural Soothing Balm report relief from many skin irritations.

The MotherVine Organic Soaps - Every handcrafted bar is made in the USA and uses pure, botanical ingredients made from certified organic edible plant oils: organic extra virgin olive, organic palm, and organic coconut. Each unique recipe then adds pure essential oil aromas and special elements from the Muscadine Vine and Honey Bee Hive to create a cleansing and moisturizing experience second to none.

The MotherVine Natural Muscadine Soap- Unscented and handmade in Wilmington, NC, these soaps contain Muscadine Grape Extract as well as Muscadine Grape Pomace and other natural ingredients

Home and Garden

The MotherVine Muscadine Home Vineyard – The MotherVine clients will now have the opportunity to own a piece of living history and have their very own MotherVine Muscadine Vineyard. Tinga Nursery of Castle Hayne, NC propogated muscadine cuttings from the original 400 year-old Mother Vine on Roanoke Island in 2004. These are now ready for planting and retail purchase. The living vine offerings include single MotherVine muscadine vines and a six-pack of three Mothervine muscadine vines and three Noble muscadine vines.

The MotherVine Home Sanctuary and Arbor – These products consist of a "built on-site" full scale gazebo type structure, a "NC factory built" smaller structure and three grape arbor units for people to have their own MotherVine Muscadine Vineyard, right in their own backyard. The MotherVine Nutraceutical Co. is partnering with Leonard Buildings (Mount Airy, NC). The launch date of this exciting home and garden project is Spring 2012.

Apparel

The MotherVine Carolina Cotton Tee Shirt - Each shirt uses "Carolina Cotton" that is grown, spun, cut, sewn, and naturally dyed in NC. Additionally, each shirt contains a Harvest Year on the tag where the purchaser can go online and meet the farmer that grew the cotton for that shirt. Each node on the supply chain is clearly identified.

The Future of Nutraceuticals

The nutraceutical market is growing rapidly, with a 2016 forecast value of $207 billion, according to a new report available on companiesandmarkets.com. According to the report, there are distinct opportunities for growth in the functional food, beverages and supplements market. Demand for healthy food and drink has increased in recent years, particularly for multi-tasking products, which provide additional heath and well-being benefits. Growth in the functional food, beverages, and supplements market has been encouraged by consumer interest in healthy living, particularly from the younger demographic, although the aging population has also prompted sector expansion as well.

THE MOTHERVINE NUTRACEUTICALS

THE HEALTH POWER OF THE MUSCADINE GRAPE– Nature's Richest Source of Polyphenolic Antioxidants*

*Source: The Journal of Agricultural and Food Chemistry 51(18):5497-503

Do you remember your Mother telling you to eat all of your fruits and vegetables? Well, I do, and once again, 'mother knows best!' Only now, mothers have a large amount of research to back them up! Science has shown that many fruits and vegetables contain antioxidants which fight free radical damage to our bodies, and Muscadine grapes are the most powerful!

When I was diagnosed with cancer 18 years ago, I decided that I had to find the very best health products to aid in my recovery. I found health foods like green tea and blueberries, but nothing that matched or compared to the antioxidant power and ORAC levels of the muscadine grape, a grape indigenous to my beloved southeastern United States.

Determined to share this with others, I Co-Founded The Mothervine Nutraceutical Co. with my wife, Carmen. We are dedicated to bringing you the most powerful, natural health products from the Muscadine grape vine and Honey Bee hive.

Our 100% natural whole muscadine grape supplements are made by drying the Muscadine pomace (skin, seed, and pulp after juice is pressed out), grinding it to an ultra fine 40 to 80 mesh, and then encapsulating into 500mg vegetarian capsules using cGMP (current Good ManufacturPing Practice) standards.

We invite you to join the Mothervine family and learn more about Muscadine health and the benefits it can bring to your life. And remember, Mother Knows Best!

THE MOTHERVINE
NUTRACEUTICALS

Located on Roanoke Island, North Carolina, the MotherVine is the oldest living grape vine in the Americas (c. 1584). Some believe it was planted by English settlers, while others maintain that Native Americans from the islands planted it. The twisted vines of the Mothervine produce Muscadine Scuppernong grapes. Muscadine grapes are packed with vital nutrients and naturally occurring polyphenolic antioxidants that research suggests will aid the human body in maintaining a healthy immune system.

The polyphenolic compounds in muscadines support a variety of healthy body functions. In combination, the synergy of these compounds make muscadines one of nature's richest sources of polyphenolic antioxidants.*
*Source: The Journal of Agricultural and Food Chemistry 51(18):5497-503

Some of these antioxidant compounds include:

Anthocyanins	Caffeic Acid	Cathechins
Cholorgenic Acid	Ellagic Acid	Gallic Acid
Kaempferol	Myricetin	Proanthocyanidins
Pectin	Quercetin	Resveratrol

- Cathechin has been found to help support healthy cell growth.
- Ellagic Acid, containing ellagitannins, are characteristic of Muscadines, but not other grapes.
- Resveratrol activates our genes for a longer and healthier life.
- Quercetin helps protect DNA.

The Mothervine Nutraceutical Company requests your permission to learn the proven science of muscadines and their health benefits.

- Immune Support
- Brain Health
- Healthy Cholesterol
- Joint Health
- Heart Health
- Aging
- Bone Health
- Digestive Health
- Healthy Blood Sugar
- Pancreatic Health

Can we protect against these health issues? Many studies suggest "YES!" Reputable Doctors suggest YES! Read The Longevity Factor (2009) by Dr. Joseph Maroon for his research and opinions. Read Muscadine Health (2008) by Dr. Diane Hartle (UGA) and others for their research and opinions! Read report 2002, Dr. Betty Ector (MSU).

THE MOTHERVINE NUTRACEUTICALS

THE HEALTH POWER OF THE MUSCADINE GRAPE AND THE HONEY BEE HIVE

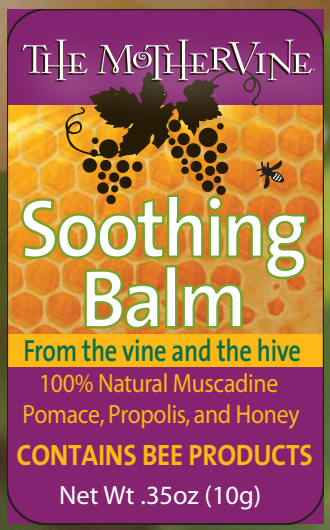
What do you get when you blend the health power of the Muscadine Grape with the health power of the Honey Bee? That's easy. You get the perfect blend of science and nature to soothe the skin and calm the soul.

Inspired by America's oldest living grapevine, The Mothervine Soothing Balm is a 100% all natural emollient that brings together three key ingredients from the vine and hive to protect, nourish, comfort, and soothe the skin.

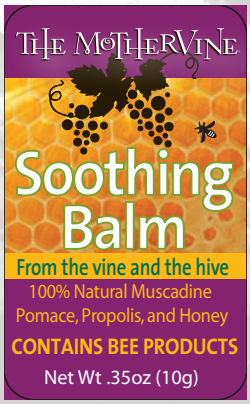
- Muscadine Grapes - Nature's richest source of polyphenolic anti-oxidants[1]. Packed with a multitude of vital natural nutrients such as anthocyanins, caffeic acid, cathecins, ellagic acid, quercetin, myricetin, pectin, and resveratrol, just to name a few. .

- Propolis - Known as the "antibiotic of the bee colony," propolis is a resinous substance that bees collect from tree bark and leaf buds. Among propolis' more than 300 elements are natural resins, wax, essential oils, pollen, and organic compounds including polyphenols, flavanoids, and esters. Recent research on propolis has demonstrated its anti-oxidative, anti-microbial properties[2].

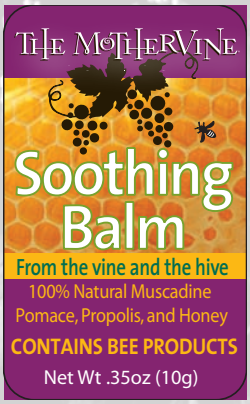
- Honey - Rich in polyphenolic compounds and nutrients which act as a natural anti-oxidant[3]. Honey has been used throughout the ages to help build healthy skin.



10g oval tube



THE MOTHERVINE NUTRACEUTICALS



The unique formulation of the Soothing Balm has been dermatologist tested in closely monitored clinical trials. People using the Mothervine's all natural Soothing Balm report relief from:

- minor skin irritations, scrapes, and burns
- chapped lips and dry skin
- mosquito and other insect bites
- jelly fish stings
- dry skin

4.25g tube

Soothing Balm Ingredients: Organic Olea Europaea (Olive) Fruit Oil, Cera Alba (Beeswax), Ricinus Communis (Castor) Seed Oil, Propolis Wax, Tocopherol Acetate, Mel (Honey), Vitis Rotundifolia (Grape) Seed, Skin, Pulp, Prunus Armeniaca (Apricot) Kernel Oil, Melia Azadirachta (Neem) Seed Oil, Rosmarinus Officinalis (Rosemary) Leaf Oil, Lavandula Hybrida (Lavender) Oil, Tocopheryl.
